Artificial Intelligence & Machine Learning:

→I am currently enrolled in a one-year training program through ALX on the ExploreAI platform, with the aim of obtaining a Data Science certification accredited by ExploreAI.

Dev Ops & Cloud Computing:

Cours en matière de 3

Introduction to DevOps
Introduction to Cloud Computing
Introduction to Agile Development and Scrum

Mar 28, 2023

Fahd Ennia
a réussi la Spécialisation en ligne, sans crédit

DevOps, Cloud, and Agile Foundations

In this Specialization, learners developed foundational knowledge in DevOps, including the culture, technology, and skills needed to succeed as a DevOps practitioner. This Specialization also familiarized learners with tools and technologies used by DevOps practitioners. Completers of this Specialization should be able to: Define Cloud Computing and explain its essential characteristics, models, benefits, infrastructure, & emerging trends, and create a cloud account; Describe the DevOps culture, its benefits, and its associated skills, technology, tools, processes, methodologies, and metrics; Explain the Agile philosophy, how to work as an Agile team, and Scrum methodology, including the roles, meetings, rules, and artifacts; and how to write user stories and execute Sprint Plans.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Mobile Development:

Cours en matière de 5

Java for Android

Android App Components - Intents, Activities, and Broadcast Receivers

Android App Components - Services, Local IPC, and Content Providers

Engineering Maintainable Android Apps

Capstone MOOC for "Android App Development"

Mar 30, 2023

Fahd Ennia

a réussi la Spécialisation en ligne, sans crédit

Android App Development

This Specialization enables learners to successfully apply core Java programming languages features & software patterns needed to develop maintainable mobile apps comprised of core Android components, as well as fundamental Java I/O & persistence mechanisms. Learners who successfully complete this Specialization will be well-prepared to master the more advanced material in the subsequent "Mobile Cloud Computing with Android" Specialization. The Capstone project will integrate the material from the Specialization to exercise and assess the ability of learners to create an interesting Android app by applying knowledge and skills learned in previous MOOCs.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
